Mads-Ole Astrupgaard elected Chair of the Board of Green Power Denmark

Resolux Group is proud to announce that CEO Mads-Ole Astrupgaard has been elected as the new Chair of the Board of Green Power Denmark.

The election took place at Green Power Denmark's Annual General Meeting on May 19, 2026, held at K.B. Hallen, Copenhagen, where the new board of 35 members was constituted.

"I am pleased and honored by the election as Chair of Denmark's green business organization. Green Power Denmark has achieved significant results, and I look forward to continuing this important work together with the board and employees. Strengthening efforts to promote a green and secure energy system requires collaboration and unity," says Mads-Ole Astrupgaard.

With many years of experience in the Danish energy sector, Mads-Ole Astrupgaard brings strong industry insight to the role. He previously served as Vice Chair of Green Power Denmark under former Chair Jesper Hjulmand, CEO of Andel, and has also been Chair of Wind Denmark – one of the three organizations that merged in 2022 to form Green Power Denmark.

This appointment highlights both his personal commitment and Resolux Group's strong engagement in supporting the green transition.

Congratulations, Mads-Ole Astrupgaard! We are proud to see our leadership represented in such an important role and look forward to supporting your efforts in driving the green transition within the Danish energy sector.
