

Solar Power

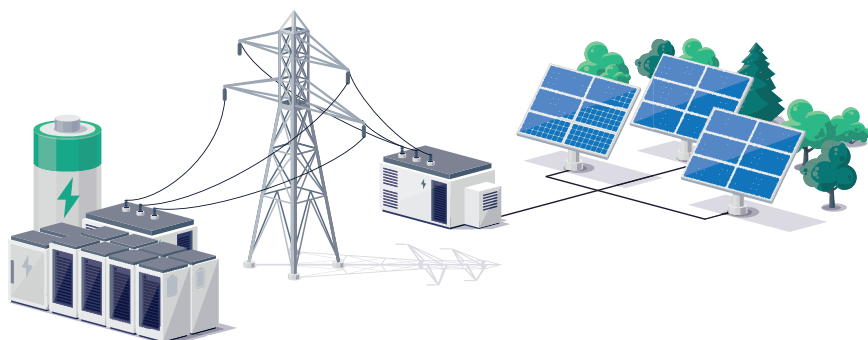

Resolux Group provides critical B and C Class components supporting the Wind, Solar, and Power-to-X (PtX) market. Our broad array of products offered include made-to-print fabrications, high strength hardware, electrical assemblies (shipping fixtures), specially coated fasteners, consumables, cables & cable management, and more.

We specialize in holistic sourcing practices to evaluate the best cost country sourcing and quality at the highest standards. With a diverse base of qualified manufacturers around the globe we support Mechanical, Electrical, and C-Class demands from OEM, Tier 1, and O&M customers.

Our broad product offering is paired with customized supply chain management programs, which include services such as: Vendor Managed Inventory (VMI), Customized Kitting, APQP Supplier and Part Qualifications, Value Engineering, and Just-in-Time Point of Use delivery.

Services Offered:

- Highly Skilled Program Management Teams
- Total Cost of Ownership Reduction
- Proven Quality Management System
- Value Engineering
- Customized Kitting Services
- Vendor Managed Inventory (VMI)
- Technology
- APQP
